

ISIS - Recommendation #1083

HiEqualization unit test utilizing app test data

2012-09-05 11:39 AM - Steven Lambright

Status:	Rejected	
Priority:	Normal	
Assignee:	Adam Paquette	
Category:	API	
Target version:	3.4.13 (FY16 R3 2016-08-31 Aug)	
Impact:		Software Version:
Description <p>The unit test for HiEqualization is referencing: "FromList.lst" inside of the HiEqualization folder. This list is in svn, and has absolute paths into /usgs/cpkgs/isis3/testData.</p> <p>This test will fail if we relocate the default test data area. This test will never use the production test data... even when it's the production version of Isis. It's specifically listing the hiequal app test test data input files -- if we modify the hiequal app tests, this unit test will unexpectedly fail.</p> <p>We should mode this test data into \$ISIS3DATA at some point in time.</p>		

History

<https://subversion.wr.usgs.gov/repos/prog/isis3/trunk/isis/src/mro/objs/HiEqualization>

#2 - 2013-08-15 10:38 AM - Anonymous

- Target version deleted (150)

#3 - 2016-06-14 09:39 AM - Stuart Sides

- Status changed from Acknowledged to Assigned

- Assignee set to Adam Paquette

- Target version set to 3.4.13 (FY16 R3 2016-08-31 Aug)

#4 - 2016-06-15 09:13 AM - Adam Paquette

- Status changed from Assigned to In Progress

#5 - 2016-06-15 10:53 AM - Adam Paquette

- Status changed from In Progress to Rejected

Both the FromList and the HoldList are using the ISIS3TESTDATA environment variable in the current version. This must have been modified at a previous time.

#6 - 2016-06-15 10:56 AM - Stuart Sides

I agree, this has already been completed.
